The information sought is provided as follows -

- 1) The Food and Environmental Hygiene Department (the Department) has a total of 159 permanent off-street refuse collection points (RCPs) over the territory, 44 of which are provided with mobile refuse compactors. Particulars of these permanent off-street RCPs are given at Annex. Apart from permanent off-street RCPs, the Department has 705 village-type RCPs and some 2 300 bin sites provided in villages and the rural areas.
- 2) In 2014-15, the Department has 12 RCP projects under planning. These include construction of one new RCP, in-situ reprovisioning of one RCP, and reprovisioning of ten RCPs at new sites due to development or public works at their original sites.
- 3) The Department will consider the provision of mobile refuse compactor in individual RCP with operational need and where the site situation permits. The estimated expenditure on waste collection service in 2014-15 is \$484 million. There is no separate breakdown on expenditure for the provision of mobile refuse compactor in RCPs.
