The information sought is provided as follows -

- (a) In 2014, there were 26 025 prosecutions against illegal hawking activities, including street obstruction, illegal hawking and sale of cooked food / restricted food. Further detailed breakdown is not readily available. The Food and Environmental Hygiene Department (the Department) does not keep statistics on the number of warnings issued.
- (b) With its existing manpower resources, the Department will continue to adopt the strategies of mobile patrol and raiding to deter unlicensed hawking. Hawker Control Team (HCT) staff regularly patrol blackspots to deter illegal hawking activities and to prevent unlicensed hawkers from taking root at these locations. If the hawkers persist in trading and do not disperse, arrest action would follow. To enhance the deterrent

effect, HCT staff also mount raiding operations at blackspots to arrest unlicensed hawkers and seize their goods and equipment.

- (c) To deter the illegal activities of cooked food hawkers during festive periods, the Department will consider enhancing publicity at strategic locations through mounting of roadside banners and handing out of notices and letters to persons in the vicinity who may operate, patronize, or report so as to deter such illegal hawking of cooked food (including licensed hawkers, nearby shops and local residents) in the run up to festive periods such as the Chinese New Year. In addition, the Department will take into account situations on the ground and flexibly deploy existing manpower resources to combat illegal hawking during the festive periods.
