The information sought is provided as follows -

- (a) In 2015, there were 23 054 prosecutions against illegal hawking activities, including street obstruction, illegal hawking and sale of cooked food / restricted food. Further detailed breakdown is not readily available. The Food and Environmental Hygiene Department (the Department) does not keep separate statistics on the number of warnings issued.
- (b) Being itinerant, unlicensed hawking is best deterred by mobile patrolling and raiding through strategic and flexible staff deployment. In 2016-17, the Department will continue to do so through redeployment of its existing manpower resources. In addition, the Department's Hawker Control Team (HCT) staff will continue to regularly patrol blackspots to deter illegal hawking activities and to prevent unlicensed

hawkers from taking root at these locations. If the hawkers persist in trading and do not disperse, arrest action would follow. To enhance deterrence, HCT staff also mount raiding operations at blackspots to arrest unlicensed hawkers and seize their goods and equipment.

- (c) To deter the illegal activities of cooked food hawkers during festive periods, the Department will consider enhancing publicity at strategic locations through mounting roadside banners and handing out notices in the run up to festive periods such as the Chinese New Year. The Department will take into account the actual situations on the ground and flexibly deploy existing manpower resources to combat illegal hawking during the festive periods.
