

CONTROLLING OFFICER'S REPLY

EEB(F)160

(Question Serial No. 3564)

Head: (49) Food and Environmental Hygiene Department
Subhead (No. & title): (-) Not specified
Programme: (2) Environmental Hygiene and Related Services
Controlling Officer: Director of Food and Environmental Hygiene (Ms Irene YOUNG)
Director of Bureau: Secretary for Environment and Ecology

Question:

Public toilets are an indicator of a city's civilisation. To improve the hygiene of public toilets, it was stated in the 2019 Budget that refurbishment and facelifting projects would be conducted for all public toilets in the territory. In this connection, please advise this Committee of:

- 1) the use of the \$600 million earmarked in the 2019 Budget for the refurbishment and facelifting projects for all public toilets in the territory;
- 2) the locations and number of public toilets for which the refurbishment or facelifting projects have yet to be completed as at 1 March 2024;
- 3) whether there are increased efforts in publicity, promotion activities, education and action plans to promote civic-mindedness apart from enhancing the hardware of the public toilets; if yes, the specific details of the expenditures, the responsible subject officers and the estimated number of people reached; if no, the reason(s);
- 4) whether the Food and Environmental Hygiene Department has considered increasing the manpower and improving the working environment of public toilets while planning the refurbishment and facelifting work, given that there are views of local communities that in refurbishing public toilets, the Department has concern only for the overall user experience and feelings, but not the interests of cleansing workers; if yes, the details; if no, the reason(s); and
- 5) whether the Department has assessed and evaluated the effectiveness of the Smart Public Toilet System; if yes, the details; if no, the reason(s).

Asked by: Hon LEUNG Hei, Edward (LegCo internal reference no.: 1)

Reply:

- 1) & 2) It was announced in the 2019-20 Budget Speech that the Government would allocate over \$600 million to implement the Enhanced Public Toilet Refurbishment Programme, under which the Food and Environmental Hygiene Department (FEHD) would refurbish or facelift about 240 public toilets under its management by phases within 5 years. FEHD has actively taken the Programme forward. As at 31 December 2023, FEHD has rolled out full refurbishment or facelifting projects for over 250 public toilets, 136 of which have been completed. The relevant

information of the refurbishment or facelifting projects is set out at **Annex**. Apart from ensuring that the existing projects for about 250 public toilets under the first phase of the Programme will be completed on schedule, FEHD has planned ahead for the next stage of work by streamlining and compressing the preliminary work flow where feasible. Besides, technologies such as Modular Integrated Construction and Design for Manufacture and Assembly that can shorten the project time have been adopted as far as practicable, with an aim to progressively commence the relevant works for the remaining 430 or so public toilets yet to be fully refurbished or facelifted in the territory in 2024-28.

The project expenditures from 2019-20 to 2023-24 are tabulated as follows:

Financial year	2019-20	2020-21	2021-22	2022-23	2023-24	Total
Actual/estimated project cost per year (\$ million)	10	52	77	65	90	294

- 3) FEHD is committed to enhancing public education and publicity through various channels, including the display of posters prominently at some public toilets and use of the broadcasting systems in public toilets to disseminate messages on the importance of keeping public toilets clean and hygienic as well as the proper use of toilet facilities. In addition, FEHD will continue to appeal to toilet users to be civic-minded and considerate through posting on social platform pages of Keep Clean Ambassador Ah Tak. FEHD does not maintain a breakdown of the expenditures involved, the responsible subject officers and the estimated number of people reached.

- 4) During full refurbishment or facelifting works, FEHD will provide toilet attendant rooms at public toilets with suitable conditions and/or enhance the room facilities, such as installing wall-mounted fans, mechanical ventilation equipment, power sockets, lighting and storage facilities, so as to improve the working environment and safeguard the occupational safety of toilet attendants. Since the implementation of the Programme in 2019, a total of 10 public toilets have been provided with toilet attendant rooms, and 45 public toilets have the room facilities enhanced.

FEHD will also flexibly deploy resources to provide toilet attendant services for public toilets with high utilisation rates as necessary and consider increasing the number of toilet attendants on duty per shift or providing full day attendant services as appropriate.

- 5) FEHD has actively leveraged technology to enhance public toilet services and has, in collaboration with the Electrical and Mechanical Services Department (EMSD) installed the Smart Public Toilet System in 14 public toilets to collect daily operation data of public toilets for better service quality. The system is equipped with various types of sensing devices for real-time monitoring of the utilisation of public toilets, environmental parameters, the usage of consumables and the operating status of electrical and mechanical equipment. It will transfer the real-time data collected to the backend computer system through the Internet-of-Things technology and

immediately notify toilet attendants or service contractors of common operation issues (such as malfunctioning of hand dryers, running out of soap and toilet paper, etc.) to be followed up according to the pre-set alerting functions. In addition, a user feedback system is installed in 13 smart public toilets to collect information of users' satisfaction with the public toilet service. In 2023, over 28 000 responses were received from the user feedback system of these 13 smart public toilets. More than 70% of the users indicated satisfaction with the public toilet service.

To ensure that the smart public toilet system achieves the goal of enhancing the quality of public toilet services, FEHD and EMSD conduct regular assessments, monitoring and data analysis of the relevant facilities, which include assessing whether the sensing devices can accurately reflect the utilisation of public toilets, environmental parameters, the operating status of equipment, etc. in a real-time manner. Based on the consolidated experience of the existing 14 smart public toilets, FEHD and EMSD considered that the smart public toilet system has achieved notable results in collecting data on the utilisation of public toilets, following up on the supply of consumables and reducing toilet odour, which can help enhance the management and service quality of public toilets. Moreover, the monthly management reports generated by the smart public toilet system provide FEHD with useful data for future planning and development. FEHD and EMSD will continue to review and enhance the system, as well as examine the operation of the smart facilities and improve them as appropriate. They have also planned to install the system in another 11 public toilets in different districts, which are of different scales and with utilisation rates, for further testing.

**Table 1: List of 41 public toilets
under the Enhanced Public Toilet Refurbishment Programme in 2019-20
(as at 31 December 2023)**

(A) 18 Full refurbishment projects

Serial no.	Name of public toilet	District	Tentative/actual commencement and completion dates
1.	Lok Ku Road Public Toilet	Central & Western	From May 2023 to February 2024
2.	Ladder Street Public Toilet	Central & Western	From March 2024 to January 2025
3.	Morrison Hill Road Public Toilet	Wan Chai	Completed on 29 August 2022
4.	Aberdeen Main Road Public Toilet	Southern	From February 2022 to January 2024
5.	Science Museum Road Public Toilet	Yau Tsim	Completed on 2 September 2021
6.	Sunny Bay Public Toilet	Tsuen Wan	Completed on 29 January 2022
7.	Wang Lung Street Public Toilet	Tsuen Wan	Completed on 27 July 2022
8.	Hong King Street Public Toilet	Yuen Long	Completed on 31 March 2022
9.	Sheung Shui Wai Po Sheung Tsuen Public Toilet	North	Completed on 30 September 2022
10.	Fong Ma Po Public Toilet	Tai Po	Completed on 1 February 2021
11.	Ma Wo Public Toilet	Tai Po	Completed on 8 April 2022
12.	Tap Mun Pier Public Toilet	Tai Po	Completed on 26 July 2022
13.	Tseng Lan Shue Public Toilet	Sai Kung	Completed on 27 April 2022
14.	Ma Liu Shui Waterfront Public Toilet	Sha Tin	Completed on 11 November 2022
15.	Science Park Road Public Toilet	Sha Tin	Completed on 30 December 2021
